

Akumal

Dates: October 27- November 3, 2012

THE RESORT

Aquatech Villas DeRosa Resort in Akumal Mexico is the #1 choice for the entire family if a beautiful tropical white sandy beach is what you are seeking. Our beachfront condos will provide you with a comfortable and relaxing Akumal Experience, with a spectacular view of the Caribbean Sea with quick access to the shallow reef for easy beach entry & reef snorkeling.

Aquatech Villas DeRosa Akumal Beach Resort is more than just the perfect beach location. Our sandy white beach of Aventuras Akumal is the home to the second largest turtle laying population on the Yucatan Peninsula, with the endangered Green and Loggerhead turtles annually returning to dig their nests and lay their yield of protected turtle eggs.

And whether its jumping on the trampoline (beach level for safety) or a sunny game of beach volleyball, or snorkeling, or building pyramids in the sand, kids of all ages will love the Aquatech Villas DeRosa Akumal Beach Resort.

THE DIVING

The Meso American Reef lies just out in front of your door step. Vibrant and spectacular coral reefs, teeming with colorful fish, coral, lobsters, conch, turtles and other marine life and actually the most biologically diverse habitats on earth. The Mesoamerican Reef system stretches over 625 miles of coastline spanning eastern coasts of Mexico, Belize, Guatemala and Honduras. It is the largest reef in the Western Hemisphere and has been identified as a unique and globally important coral reef ecosystem.

And every day we will be literally immersed in the cenotes and the Mayan culture, with morning dives scheduled each day in the world's most pristine and beautiful cenote and cave systems. We offer both recreational cavern dives and technical cave dives for qualified divers on this trip. For those ready to advance their skills, technical cave training will be available. Experienced guides will lead our tours though the submerged systems to ensure our enjoyment and safety. The caves in this area are spectacularly decorated and you can experience them first hand with us. With over 90 different cave systems at present, there will be more in the future. The longest has over 85 miles of surveyed lines. These underground rivers are filled with gallons and gallons of fresh clear water, and are truly a world wonder.
